## Shadowy Gun Control Groups Influence 'News' Media

by Alan Korwin  
Gunlaws.com

PHOENIX, AZ --(Ammoland.com)-  
The lamestream media told you:

Americans for Responsible Solutions, says this.. Everytown for Gun Control, says that.. Moms Demand Action for None Sense in America, says this.. Illegal Mayors Against Guns, says that.. blah, blah, blah.....

The Uninvited Ombudsman notes, however, that: These names keep popping up in the "news," but who are they exactly? Do they have memberships? Are they "real" or are they empty shell constructs of some power broker, unquestioned by the "news" media? Why do they command such high-profile positions in the media? How did they burst onto the scene so rapidly?

Is the media doing its job vetting them? Should their membership lists be publicly revealed like gun-permit lists reporters periodically release or attempt to release? Why do those groups receive such credible and plausible coverage, when time-honored and long-standing constitutionally based groups in every state and nationally are routinely trashed by the same reporters and editors?

Should the licenses and registrations of reporters and editors be

subject to official inquiries? Oh, that's right, they don't have any. Those questions unfortunately have truly ugly answers, because the named groups are little more than hastily constructed propaganda vehicles created by a small handful of insanely rich power-brokers led by former New York mayor Michael Bloomberg and allies. And everyone knows it. The media's lack of ethics shines brightly through that smokescreen.

The media and the shell groups are exercising a misplaced vendetta against the fundamental human and civil right to keep and bear arms, in the false belief that by placing all gunpowder in the hands of the government and the police we will all be safer. (Some black people have less faith in that plan.)

The media knows this but ignores it its headlong rush to praise "the establishment" and vilify and crush the very rights that protect their right to publish the filth they propagate. The level of distortion associated with this "news" coverage would win awards, if journalism awards were given for such categories as distortion, misinformation, lack of balance, and failure to accurately inform on subjects of critical importance to the American republic.

\*\*Calls for a U.S. Dept. of Accuracy (DOA) were unheeded at press time.

### General Range Rules

CCGC Bylaws - Rules - Procedures Page 11

#### EYE AND EAR PROTECTION MUST BE WORN ON RANGES

1. Members and their guests must follow safe firearm handling practices at all times.
2. Deliberate and/or willful violations of range policy/rules may result in Suspension, Expulsion, or Banning as a member of the Club and will not be allowed on Club property.
3. Do not fire any handgun, semi-automatic, or full-automatic firearm in or on CCGC-owned property.
4. Only paper or cardboard targets are allowed within the facility; exception to this rule is allowed for specific, scheduled events and purposes granted by the Board of Directors on a case-by-case basis.
5. Take care of your range! Leave the range as clean or cleaner than you found it. Police all brass, vacuum chaff, take down used targets, cardboard and put in proper containers. Turn off ALL lights, control switches and heat. Last one to leave the Club locks the dead bolt on the main door.

CCGC Bylaws - Rules - Procedures Page 14

#### PISTOL RANGE RULES

1. EYE AND EAR PROTECTION ARE MANDATORY.
2. No shotguns, select-fire or full-automatic firearms allowed.
3. No holster work is allowed at any time.
4. Targets must be positioned so as not to allow rounds to impact the floor, ceiling, walls or target carriers. See posted diagrams for target placement.
5. When other shooters are present on the Range, before proceeding downrange let the other shooters know by calling "CEASE FIRE". When ready to fire, let the other shooters know by calling out "COMMENCE FIRE".
6. Only paper or cardboard targets are allowed. Exceptions are scheduled events.
7. Place CUD rounds in the red bucket located on each range.
8. Place all unwanted brass in the blue barrel located on each range.
9. CLEAN your shooting position: Police brass, vacuum chaff, take down targets and cardboard, and put in PROPER containers.
10. TURN OFF ALL LIGHTS, HEAT or A/C, if you are the last person to leave the range.

# What cartridges can I shoot on the range?

## Pistol Range Limitations:

1. Carbine use on the Pistol range: Only 45ACP, 45 Long, 38 Special, 40 S&W and 9mm will be allowed at this time. Absolutely no "bottleneck" cartridges, including rimfire cartridges, will be allowed. Absolutely no magnum rounds, including rimfire. Signs will be posted prominently with these regulations.

2. Magnum calibers, including but not limited to .357 magnum, .44 magnum, .454 casull, .480 ruger and like calibers are permitted to be fired only on position 20 or in the Tube.

3. All bottleneck cartridges specifically designed for pistol use are also limited to position 20, including but not limited to .357 Sig, .400 CorBon, 9x25 Tokarov and others.

4. The handgun caliber map below covers most of the calibers. If you are shooting a wildcat cartridge or a worked up hand-load, it is up to you to determine the damage potential. No excessively-fast or heavily-copper-coated bullets may be fired on the pistol ranges due to potential backstop damage.

The terms excessively-fast and heavily-copper-coated are deliberately subjective - it is incumbent upon the member to determine the feasibility of their round on the pistol range. US-manufactured hardball ammunition is specifically allowed.

## FOLLOW THIS PROCEDURE FOR UNTRIED ROUNDS:

1. Fire a single round on the test plate to the right of position 20. If

the test round shows damage to the test plate, STOP. The round cannot be fired on the pistol ranges.

2. If and only if the test plate shows no damage, fire one round on position 20. Check to see if there is any damage. If you see damage, STOP testing; the round cannot be fired on the pistol ranges.

3. If and only IF position 20 shows no damage, then stop testing. If the round is considered magnum-class caliber, it can be fired on Position 20 or in the Tube.

4. If the round is not considered magnum-class caliber, fire a single round on Position 19. If Position 19 shows no damage, stop testing. The round may be fired on any pistol lane.

5. If in doubt, contact a Board Member.

## HANDGUN CALIBER MAP

Unlimited: means the caliber is allowed on any position on the pistol ranges.

Position 20: Means only allowed at Position 20 on the pistol ranges.

Not Allowed: Not at CCGC

## ALL RIFLE CHAMBERING ROUNDS - TUBE ONLY

- |                         |             |
|-------------------------|-------------|
| 1. 50 BMG               | Not Allowed |
| 2. Any Shotgun          | Not Allowed |
| 3. Any Tracer Round     | Not Allowed |
| 4. Any Incendiary Round | Not Allowed |
| 5. Any Armor Piercing   | Not Allowed |

**Cherry Creek Gun Club  
Agenda  
January 9, 2015  
Part I. General Membership**

**Present** – Jim Bailey, Jack Orischak, Mike Thomas, John Buglovsky, Carlton Steubiing, Jack Priest, Gary Trisdale, Sandy Rudolph

**Absent** – Tom DeHerrera

**1. Call meeting to order**

**2. Pledge of Allegiance**

**3. Presentation of guests** – Don Eyser, CCGC/Hunter Ed; Max Litvinenko, CCGC & Jim Heath, Colorado Coordinator, Project Appleseed

**4. Approval of General Membership Meeting minutes** - Approved  
Correction - Michelle McCollum, new member; last name incorrect in minutes

**5. Presidents Report**

**6. Vice-Presidents Report** – Motion sensors for Club rooms were on backorder, but have been received. Installation will begin shortly.

**7. Secretary Report**

**8. Treasurer Report** – Pete Dickson has completed 2014 books. John B. will send e-mail to Board Members

**9. Membership Coordinator Report**

Bill Spinuzzi - 2015 membership update - 489; NRA Compliance update – 3 remaining, Resignations - 13

**10. Ongoing Board/Committee Reports**

Bill Spinuzzi - outside camera in-

stallation update – Cameras have been installed, wiring will be done when weather improves. Warren Johnson has agreed to assist.

**11. Correspondence**

**12. Old Business**

**13. New Business**

**14. Introductions / Voting on New Members –**

Daniel Harris – Approved; rejoining as past member who left and returned; went through new Saturday orientation program, felt it was very thorough.

**15. Topics of interest from Club Members – Open Forum – Board of Director topics to discuss from members**

Don Eyser – Hunter Ed class of 25 youths, needs range for shooting requirement, has had access to range several times before – Approved for February 21, 11 am – 4 pm, approx. 16 youth and 6 adult students

Max Litvinenko & Jim Heath, Project Appleseed – Introduce program to members and Board for consideration as a Club activity – Program teaches rifle marksmanship, 250-500 shots to 500 yards. Non-partisan group teaches American History and civic participation at the same time. Normal cost is \$60 per adult, \$20 per youth.

Bill Bierbach – Has decision been made on single monthly meeting or two?

Chuck Towne – Meeting date on calendar is incorrect – will be corrected and reposted to website and updated in February Firing Line

**Part II. Board of Directors**

NOTE: This is now the beginning of the CCGC Board of Director portion of the Monthly Meeting. This is not open to membership discussion unless the BOD determines membership participation will be helpful.

**1. Approval of BOD Minutes - Approved**

**2. Old BOD-Specific Business**

Bill Spinuzzi - door exit button update with member input – Mark Cameron, CCGC member has agreed to help with door access buttons and bring them up to code with two methods of access. He will also investigate permit requirements and costs. Main goals are convenience, ease of use and, most of all, safety. Magnetic locks seal in case of power failure. Mark will also assist with installation of camera toward the middle of the Rifle Tube.

Mike Thomas – Meeting Schedule – After much discussion, final vote determined Board would adopt a single meeting (2nd Friday of each month) for membership and Board. Format will follow that follow since November, 2014.

**3. New BOD-Specific Business**

Mike Thomas – Guidelines for Board-sponsored training at CCGC – Information regarding instructor policies and restrictions was given to each Board Member. Discussion and any decisions to be made will be scheduled for February meeting, hopefully allowing time for legal issues to be studied.

Project Appleseed – Cannot schedule before April or May at the earliest gives Board time to further discuss any concerns it has. Will be put on the agenda in February.

Jack Orischak – Is there any way to simplify guest pass procedure? Do we need full waiver? Should we consult a lawyer? Process appears to have improved collection of guest fees, but cheating and non-payment is still an issue. First Aid Course has been requested. Instructor will be contacted, a course will be scheduled, and promotion will begin shortly. Maintenance issues – Warren Johnson has agreed to assist with target carriers. Contacts for members interested in working for reimbursement of fees are Jack Orischak or Jack Priest ONLY.

Jim Bailey – Miscellaneous issues – 1) NO SMOKING policy at the Club will be strictly enforced; 2) shooting at targets other than paper or cardboard is not allowed, unless part of an approved program; 3) CF bottleneck cartridges and ALL Magnum rounds will be fired on Position 20 ONLY. Need subcommittee to examine program contracts for programs sponsored by the Board.

Chuck Towne - will continue to assist with target turning mechanism on carriers used in Bullseye and 2700 shooting.

#### 4. Adjourn

---

## DO YOU KNOW WHAT THIS IS???

This is a **Backstop Damage Eliminator Device (BDED)**, also known as a “Laser Pointer”. You will see these commonly used during presentations. This is one of the simplest ways to determine if you are correctly hanging your target at the height that will not cause any bullet hits in the “RED” backstop area, the “CEILING”, or the “FLOOR”. When you set your target at the height and distance you plan on shooting, take about 15 seconds and use your BDED, standing, sitting, on a rest, or whatever position you choose. Point the BDED at the target and then move it off the target to see where your bullets are going to go once they go through the target. Oh, yea, surprise, guess what? The targets do not stop the bullets! The backstop stops the bullets, or the ceiling, or the floor, or the mechanical hanging system. If you do not believe it, take a stroll down range sometime when it is safe and look for yourself. Remember, we are all owners of this fine facility and it takes ALL of us to be aware of the fact that one person’s damage does affect all of us.

**CCGC is a**  
**NO SMOKING**  
*facility*

**FINAL**
